PROFESSIONAL SUMMARY

GATE 2026 qualified | IIIT Bhopal MCA (CGPA: 9.6/10) | ML Engineer with production deployments using FastAPI, Docker, and Streamlit. GenAI practitioner skilled in LangChain, RAG, Prompt Engineering, and Vector Databases. Strong mathematical foundation in probability, statistics, and linear algebra. 300+ DSA problems solved. Actively building RAG systems, multi-agent pipelines, and AI-powered tools. Seeking GenAI & AI/ML engineering roles at AI-first product companies

EDUCATION

Indian Institute of Information Technology (IIIT)

Master of Computer Applications (MCA) – **CGPA: Above 9.0 (Current)**

Bhopal, MP

July 2024 – May 2027

Vikram Deb University

Bachelor of Science (B.Sc.) in Computer Science – **CGPA: 9.5/10.0**

Jeypore, Odisha

July 2021 – June 2024

TECHNICAL SKILLS

Frontend Development : HTML5, CSS3, JavaScript, Bootstrap, Responsive Design

Backend & Full Stack : Python, Django, FastAPI, JavaScript, MySQL, MongoDB(basic)

Programming & DSA: Python, C, C++, Data Structures & Algorithms (DSA)

AI/ML & Libraries : Machine Learning, GenAI, LangChain, RAG, Vector Databases, Prompt Engineering, NumPy, Pandas, Matplotlib, Scikit-Learn, TensorFlow, Keras, CNN, BiLSTM, Genetic Algorithms, Sentiment Analysis (VADER), Hyperparameter Tuning, Cross-Validation, Feature Engineering

Tools & Frameworks : Git, GitHub, VS Code, Gemini, Claude, Google Colab, Jupyter Notebook, Tkinter, Streamlit, Docker, Render

MACHINE LEARNING PROJECTS

Heart Disease Risk Predictor | FastAPI, Docker, Streamlit, Machine Learning [\[demo\]](#) [\[docker\]](#) [\[github\]](#)

- Architected a production RESTful API using **FastAPI**, serving a Logistic Regression model trained on 4,240+ records from the Framingham Heart Study dataset.
- Executed feature engineering and cross-validation pipeline with Pandas and NumPy, achieving **85%** classification accuracy.
- Engineered an interactive **Streamlit** dashboard for real-time patient risk assessment with color-coded predictions.
- Containerized all application components with **Docker** and deployed to **Render**, resulting in a 40% reduction in deployment failures and a 25% improvement in application uptime.

MultiStock Price Prediction using Deep Learning and NLP | CNN, BiLSTM, Genetic Algorithm, Sentiment Analysis

- Engineered a hybrid **CNN-BiLSTM** architecture with per-stock Twitter sentiment (VADER) and a **Genetic Algorithm** for hyperparameter tuning, processing 6,281 observations across 25 equities
- Used Genetic Algorithm to search 576 hyperparameter combinations with only 18 evaluations (5.6% of grid), reducing search cost by 94.4% while improving validation MSE by 19.3%.
- Achieved a test **R² of 0.96**, RMSE of 19.22, and MAE of 12.27, outperforming LSTM, CNN, and CNN-LSTM baselines.

SOFTWARE ENGINEERING PROJECT

Full-Stack Task Management System | Django, MySQL [\[demo\]](#)

- Architected a secure task management system using Django and MySQL, ensuring 100% data isolation between users through custom authentication middleware.
- Implemented full CRUD operations with Django ORM and session-based security for a personalized task environment.

ACHIEVEMENTS & CERTIFICATIONS

- Qualified **GATE 2026** (DA) in **1st Attempt** with Score: 502 (Normalized)
- University Topper** among all streams of Degree courses in Vikram Deb University, 2024
- Secured **16th Rank** in OJEE Entrance Examination for MCA
- Scored **Rank 713** in NIMCET (National Entrance Exam)
- Achieved **Grade O** in Diploma in Computer Programming (DCP) certification course
- Solved 300+ Data Structures & Algorithms problems across GeeksforGeeks and LeetCode.
- Participating in **Gridlock Hackathon 2.0** (HackerEarth) solving real-world traffic demand prediction using geohash and temporal features via a leakage-free ensemble.
- Completed **AI For All** and **GenAI For All** certification courses from Infosys Springboard

POSITIONS OF RESPONSIBILITY

- Elected as Class Representative for 60+ MCA students; streamlined communication between faculty and peers, resulting in a 20% improvement in academic resource distribution.
- Anchored and coordinated various school-level events, managing public speaking and stage flow.
